## Support for our veterans

**April 16 2014**

Ballina and the region's veterans, their wives and carers, can rest a little easier knowing that *Crowley's Veterans' Home Nursing* and *Veterans' Home Care* contracts have been extended by the Department of Veterans' Affairs.

Operating for more than eight years, Crowley's popular *Veterans' Home Nursing*, provides critical nursing support to the veteran community in their own homes.

Crowley's *Veterans' Home Care* service compliments their Veterans' Home Nursing and offers more practical day to day support to our local veteran community including help with cleaning, shopping and safety related house and garden maintenance.

"Our region has a high veteran population and they deserve and need assurance about the support services they can receive in their homes," said Crowley CEO Michael Penhey. "Supporting our veteran community, so they can continue living independently in their own home, is a vital and much needed service and Crowley is proud to provide these services." he said.

If you are a veteran and are interested in Crowley's Veterans' services please call 6686 5090 for more information.

**Ends**
