Dear Residential Care residents, families and visitors

We have wonderful news.

We can confirm that following our most recent testing we have identified no further positive cases in our Rosebank wing.

Furthermore all residents of Rosebank who previously tested positive have now completed their isolation period and recovered.

These residents are once again able to move about as normal and participate in the entertainment and activities on offer with their fellow residents.

This officially concludes our outbreak and we thank our families and residents for their trust in our outbreak management, and our staff who time and again meet these challenges.

Thank you to everyone for your ongoing support.

Please share with family and friends who may not be on our mailing list.

Kind regards

A handwritten signature in black ink, appearing to read "K Potts", with a long vertical line extending downwards from the end of the signature.
