Dear Residential Care Residents and Families

**Re: Residential Care Resident COVID-19 Booster**

We are pleased to be able to confirm that Healthcare Australia (HCA) has once again been appointed the contractor for our Residential Care resident COVID-19 immunisation clinics. Healthcare Australia (HCA) will visit our facility this week to administer the second COVID-19 booster vaccination.

The HCA Vaccination clinics will be conducted over two days, as follows;

- **Wednesday 25 May**

Residents of Banksia, Lillipilli and Prospect Wings

- **Thursday 26 May**

Residents of Serpentine, Missingham, Riverview and Rosebank Wings

**Consent**

Our clinical nursing team have been liaising with residents, and where required, their person/s responsible, to seek consent for the vaccination. Only residents with a current consent form will receive the booster vaccination.

**Post Vaccination**

After receiving the vaccination, residents will be taken to our clinic recovery area and kept under observation for a minimum period of 15 minutes.

**Visits and Excursions**

To ensure our residents can receive their booster vaccinations and be monitored accordingly, we request that there be **no visits and non-essential excursions** for residents on the day they are to receive their vaccination.

Should you have any questions regarding these clinics please contact Crowley Reception.

Regards
