

24 November 2023

Dear Residential Care residents and families

Further to our previous communication I wanted to update you on the COVID-19 outbreak in our Riverview and Rosebank wings.

We are pleased to advise that Outbreak testing in these wings has been completed and we have not identified any further positive cases. Residents who tested positive are currently isolating in their rooms.

Our testing regime and close clinical monitoring of all residents continues.

As mentioned previously, residents, including those in Riverview and Rosebank, can continue to attend excursions and receive visitors. We encourage visits to occur outdoors as much as possible for all residents of the Facility.

All visitors will be advised of the PPE required on arrival.

Thank you
