Dear Residential Care residents, families and visitors

I write to inform you we currently have one resident in our Riverview wing who has tested positive to COVID-19. This resident is now isolating in their room.

All other Riverview residents are negative following RATs and are undergoing PCR testing today.

To keep everyone safe, and in line with our COVID-19 Protocols, we have closed off the Riverview wing for now with a restriction on visits and excursions for residents in this wing.

Whilst the wing is closed Riverview residents are still be able to move about within their section of the wing, which has been separated as an additional precaution.

The rest of our Residential Care Facility is operating normally within our COVID-19 safe systems and precautions.

We are all learning to better live with COVID-19 as part of our life. And in so doing, we are committed to keeping "life as normal" as best we can whilst keeping everyone as safe as we can.

We shall keep you informed as we progress.

Very best
